It's that simple!

Quick and easy access to your very own content manager - update images, news, specials and promotions. Speak to your target audience across various platforms and media, not just your website

Images, Descriptions, GPS co-ordinates - and more... displaying all the info your guests may require

With the content manager you can create and manage your own unique **'short and long' descriptions for both the property information as well as all room category** descriptions. These are easy to change and will reflect immediately on your website.

- | | |
|------------------------------|----------------------|
| Property | Room Category |
| - Short Description | - Short Description |
| - Long Description | - Long Description |
| - Image Carousel (Unlimited) | - Single Image |

Enter the address of your property and it will automatically generate the GPS co-ordinates for the property. From the booking engine, the guest can now 'Get Directions' to the property at the click of a button, using Google Maps.

Web Marketing - SEO and Google Analytics using your own keywords and analytics code

Enter your own **keywords** and improve the ranking and visibility of your site. The content manager also allows you to enter your unique **Google Analytics** code and for you to track the **'look to book' ratios and activity** on the booking engine.

News Items – Facebook and Twitter Integration

Add news bursts quickly and easily

Add multiple news stories on the home page of your booking engine. This is aimed at enticing visitors to the site to book based on published events, specials and experiences that you may wish to display! These will automatically update your facebook and twitter accounts!

Update your website and Social Media -

Live feed to your website and social networks

HTI's proprietary Content Manager makes updating your public facing booking engine quick and simple.

- Update Keywords for improved SEO, and use localised up to date images to promote your product offering
- Inform your guests at the time of booking of any special rates, promotions and activities at the property
- Update an unlimited number of 'news items' highlighting experiences at the hotel – these reflect immediately on facebook and twitter

Google Maps - 'Get Directions'

Individual or Multi-property (if applicable) Create a 'site' per property or a group site

LIVE Feeds
- News
- Specials
- Promotions etc.

Listen to your audience

Give your guest the power to transact. eRes WebBookings turns your site into the ultimate sales weapon.

Upsell, cross-sell and maximise your revenue potential with the right business tool that has been designed for hoteliers, by hoteliers.

Convert all lookers into bookers with real-time content, images, news and events displayed on your website and across your next generation sales channels
